EDUCATION

National Institute of Technology, Kurukshetra

B.Tech in Information Technology

Kurukshetra, Haryana

Dec. 2021 – June 2025

Delhi Public School, Ballabgarh

Class XII (CBSE) — 98%

Faridabad, Haryana

2020 – 2021

WORK EXPERIENCE

Technical Lead - R&D | HCLTech

Sept. 2025 – Present

Bangalore, India

- Driving maintenance and enhancement of **HPE's enterprise telecom platform** (20+ years in production), acquired by HCLTech; developing and deploying **production-grade** features, critical fixes for large-scale telecom systems serving **millions of users**.
- Implemented an end-to-end **SRTP-DTLS** encrypted calling pipeline with DTLS fingerprint validation and support for 10+ cryptographic key exchange configurations (SDES & DTLS-SRTP), compliant with RFC 3711, 5763, 5764.
- Designed and shipped a **GUI-based** dynamic SRTP configuration solution, reducing QA setup and testing time by **60%**; owned **80+ Jira stories** across full development lifecycle (requirements to release).
- Performed packet-level debugging using Wireshark across **SIP/RTP/SRTP/DTLS traffic**, resolving 20+ critical audio degradation and SRTP-DTLS call establishment issues, reducing incident resolution time by **40%**.

Fullstack Software Developer Intern | Nullclass

Jan. 2024 – Jun. 2024

Remote

- Engineered and deployed a scalable full-stack web application using React.js, Node.js, Express, & MongoDB, integrating 10+ REST APIs and implementing **caching and lazy loading** strategies that reduced response latency by **60%**.
- Optimized backend performance by redesigning MongoDB schemas with compound indexes across 100K+ records and implementing JWT-based authentication, reducing query execution time by **50%** & improving data throughput by **70%**.

PROJECTS

AI Resume Analyzer | React.js, Node.js, Express, Docker, Cloudinary, Gemini API | Demo | GitHub

- Built and **Dockerized** a full-stack AI-powered resume analyzer serving **role-specific feedback** via Google Gemini API — interactive **ATS score meter** with celebration animation, Dark mode, PDF storage on **Cloudinary** with delete functionality, and user consent flow for data privacy compliance.
- Engineered complete pipeline: PDF upload → cloud storage → text extraction → **personalized AI analysis** with role-based prompting → animated results dashboard.

StackAdvance | React.js, Node.js, Express, MongoDB | Demo | GitHub

- Architected a Stack Overflow-style Q&A platform with a RESTful API backend, Google OAuth authentication, multilingual support, dark/light mode, and a reward system; improved page load performance by **40%** using lazy loading & efficient content rendering.
- Optimized **API response time by 50%** via query batching, MongoDB indexing, and optimized data access patterns across a multi-collection schema.

TECHNICAL SKILLS

Languages: C++ , Java, Python, SQL, JavaScript

Backend & Web: Node.js, Express.js, REST APIs, JWT Auth, WebSockets

Databases: MongoDB, MySQL **Frontend:** React.js, HTML/CSS

Core CS: Data Structures & Algorithms (DSA), OOPs, DBMS, OS, Distributed Systems, System Design Fundamentals

Networking & Security: DTLS, SRTP, RTP, RFC (3711, 4568, 5763, 5764), Cryptography, Wireshark, Computer Networks

AI & Cloud: Google Gemini API, Claude, Cloudinary

Tools: Git, Docker, Linux, Jira, Baresip, Linphone

Exploring: AWS (EC2, S3), Microservice Architectures

ACHIEVEMENTS

- Solved **650+ DSA problems** across LeetCode, GFG, Code360, HackerRank.
- **2024:** Finalist — **Smart India Hackathon (SIH)** at NIT Kurukshetra; Top 5% globally — **Adobe GenSolve 2024**.
- **2023:** Rank #1, Ninja Dominator League, Code 360. **2022:** 2nd place, TechSpardha'22 ChatBot, NIT Kurukshetra. (Certificate)
